

THAMINA AHAMED MISSY

Senior QA Engineer | Remote

Dhaka, Bangladesh | +88 01963676778 | thamina.ahamed@gmail.com | LinkedIn: <https://www.linkedin.com/in/thamina-ahamed-missy/>

PROFESSIONAL SUMMARY

Senior QA Engineer with 4+ years of fully remote experience testing web and mobile applications for international teams across Lithuania and Canada. Specializes in manual, functional, regression, and exploratory testing, with hands-on experience in API testing, SQL validation, and AI-powered SaaS products. Proven track record of clear defect documentation, cross-functional collaboration, and reliable release validation in fast-paced Agile environments. Comfortable working async across time zones with distributed product and engineering teams.

CORE SKILLS

- **Testing Types:** Manual Testing, Functional Testing, Regression Testing, Smoke Testing, Integration Testing, UAT, Confirmation Testing, Exploratory Testing, Sanity Testing, Ad-hoc Testing, Boundary Value Analysis, Equivalence Partitioning, Black Box Testing, Usability Testing, Compatibility Testing, Performance Testing, Mobile App Testing
- **API Testing:** Postman, HTTP Methods, JSON, Response Validation, CRUD Operations, Status Codes, Request/Response Body Validation, Environment & Variables Setup
- **Database Testing:** Basic SQL (SELECT, INSERT, UPDATE, DELETE)
- **Tools & Platforms:** Jira, Postman, Browser Developer Tools, Excel Reports, BrowserStack, Figma, Google Tag Manager, Chrome DevTools / Network Tab, Slack, Confluence
- **Methodologies:** Agile, SDLC, STLC, Risk-Based Testing, Daily Stand-up Participation, Sprint Planning Involvement
- **Documentation:** Test Plan, Test Case Design, Test Scenario, Defect Reporting, Test Reports, Test Summary Report, Traceability Matrix, Bug Lifecycle Reporting
- **Soft Skills:** Analytical Thinking, Problem Solving, Cross-functional Collaboration, Leadership, Mentoring, Communication, Time Management, Attention to Detail, Adaptability, Remote Team Collaboration

PROFESSIONAL EXPERIENCE

Senior QA Engineer

Aug 2025 – Present

Netzet — Remote (Lithuania)

- Performed end-to-end manual testing for web and mobile applications across 18+ releases, designing and executing smoke, regression, functional, and exploratory test scenarios.
- Identified, documented, and tracked an average of 10+ defects per sprint in Jira with detailed reproduction steps, enabling faster triage and reducing critical defects reaching production.
- Conducted API testing using Postman and performed basic SQL validation for back-end data verification across 25+ endpoints.
- Validated 18+ release builds prior to deployment, ensuring application stability with minimal critical post-release defects.
- Tested AI-generated outputs and user-facing features on an AI-powered SaaS product, validating accuracy and quality of model-driven results.
- Collaborated daily with developers, product owners, and stakeholders across time zones to clarify requirements and validate bug fixes within Agile ceremonies.
- Maintained QA documentation including test cases, regression suites, and release validation reports for 30+ features.

QA Engineer

Jan 2022 – Sep 2024

Smedia — Remote (Canada)

- Conducted manual and exploratory testing for web applications across 10+ projects, focusing on functionality, usability, UI consistency, and data quality.

- Performed regression, integration, performance, and compatibility testing to validate application stability across 40+ releases.
- Executed cross-browser and cross-device testing using BrowserStack, identifying and resolving 50+ compatibility issues.
- Validated UI implementations against Figma designs, achieving pixel-perfect accuracy and consistent responsive behavior across devices.
- Reviewed product requirements and technical specifications, providing actionable QA feedback that improved development cycle efficiency.
- Collaborated with developers and product teams to identify root causes and verify resolutions, maintaining organized defect reports and test documentation.

Support Engineer

May 2018 – Dec 2021

Smedia — Remote (Canada)

- Provided technical support and troubleshooting for software-related client issues, maintaining a strong client satisfaction and issue-resolution rate.
- Implemented tracking solutions using Google Tag Manager (GTM) and analytics tools, improving client-side reporting accuracy.
- Configured custom tracking pixels for Google Ads and Facebook Ads, supporting accurate campaign performance measurement.
- Assisted in data extraction and website crawling for business and analytics purposes.

AWARDS

- Top Performer Award (Twice) — Smedia, recognized for outstanding performance, reliability, and consistent contribution to team success.

EDUCATION

BSc in Computer Science — American International University-Bangladesh (AIUB)

2014 – 2018

LANGUAGE PROFICIENCY

English — Duolingo English Test, Score: 120 (Advanced Proficiency) <https://certs.duolingo.com/au4la5vgpuzuuvkz>
